

Please accept this invitation to our first Black Family Forum.

The Black Family Forum is the culminating project for students enrolled in Ethnic Studies 331: The Black Family. This course examines the history, dynamics, strengths and challenges pertaining to people of African descent in the United States.

The forum is designed to help students apply classroom and textbook knowledge to real life community issues. It also serves to bring Wichita State University and the community together to share knowledge, resources and to develop strategies to address problems that confront us.

Your presence is essential in helping us further engage and explore these issues in a constructive manner. Each one, teaches one. Come learn with us.

RSVP to Angela Scott (316) 978-6545 or amscott@wichita.edu by December 10, 2008

This event sponsored by the School of Community Affairs, Wichita State University
